# about Shintoku town

Shintoku-cho is famous for producing buckwheat.

Shintoku-cho has long been known as a buckwheat production area, and many buckwheat noodles are grown in the town.

The "Shin Soba Festival" held every year is crowded with many tourists.

In addition, Shintoku-cho, which has a vast area, has hot springs, mountain climbing, rafting, horse riding, skiing, etc.

There are plenty of activities to enjoy with nature.

Limited express trains stop at JR Shintoku Station, so access from Sapporo and New Chitose Airport has improved.

In winter, many guests from Honshu come in search of good quality snow.

## ◇TOPICS

## **Newly installed an artificial snowfall machine manufactured by Techno Alpin!**

Sahoro Resort will install a new artificial snowfall machine by Techno Alpin.

The new snowfall machine is a new snowfall machine manufactured by Techno Alpin of Italy. Compared to conventional machines, the new machine is capable of stable snowfall even at high temperatures and can adjust the snow quality.

The snow quality can be adjusted, so it is possible to make snowfall from heavy snow for root snow to powder that is close to natural snowfall. The area where artificial snowfall can be made is also expanding. The area where artificial snowfall can be made has been expanded. This will greatly alleviate the problem of opening delays and course restrictions due to lack of snow at the beginning of the season, as has been the case in recent years. This will lead to a significant alleviation of the problem of opening delays and course restrictions due to lack of snow at the beginning of the season, and will make the slopes more enjoyable throughout the season. This will help to create slopes that can be enjoyed for a longer period of time during the season.
